Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days.

Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

Natal Chart Report

Birth Chart

This birth chart report shows the positions of the planets for Chart2.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Cancer

Sun in Cancer natives have a strong survival instinct. They are protective of those they care about and of themselves too. They are often quite reticent about sharing their inner selves with the rest of the world and are often caught up in reminiscing.

Cancers have a reputation for moodiness, although this trait is most evident when the Moon is in Cancer. Cancer needs roots. They resist change to an extent, and they concern themselves with being secure and safe in almost everything they do. Cancers can be quite intrigued by objects with history attached to them -- antiques, photos, souvenirs, and the like.

Cancer is a very sensitive sign, and they don't always appreciate it when you are blunt with them. Their reactions to hurt depend on how thick a shell they have developed. Most Cancers react by withdrawing or retreating. Some have developed an ability to manipulate others to get what they want. They avoid direct confrontations, almost as a rule. Cancers are, in fact, quite yielding and soft when you have them in the right mood. They are one of the more hospitable signs of the zodiac. Sure, they can be touchy and indirect, but they are also very dependable, caring souls.

Short description:

She weighs words carefully and can be tenacious. A calm and discreet nature, tender, thoughtful, sensitive, and impressionable.

Possible issues: She is humble, timid, changeable, indecisive, lazy, or over-sensitive. Easily influenced by the family and sometimes manipulative.

Cancer with ascendant Aries

Sun in IV: The Sun is in the fourth house

You invest much of your pride and energy in your personal and private life, your home, and your family. Privacy is important to you. You are naturally protective of your loved ones, including your heritage and personal life. Real estate and property are in focus. Advice: Avoid being defensive or resistant to change as you work to build a secure foundation for yourself and the people you love.

Key points:

Protective and self-protective. Strong memories and sentimentality. She seeks fulfillment through creating a solid and secure foundation.

43 Sextile between the Sun and Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people.

You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to most people, and your self-confidence and security make you easy to deal with on many levels.

Your relaxed, easygoing disposition puts others at ease. Your "default setting" can be unprepared for conflict, and you often avoid "rocking the boat." You may acquiesce to others a little too often, if only to maintain balance and harmony, as you prefer to avoid conflict.

This influence brings a tendency toward too much acceptance--of the self and others. You may need prompts and encouragement to question life, or you risk taking things for granted.

Your vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the ups and downs that often plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and emotional needs differ, they are largely in harmony.

Short description: Well-rounded and harmony-oriented. She has lots of vitality and more potential than she may realize. She likes public life; she is popular, and others appreciate her company. She is balanced, at ease with herself and usually gets on very well with her parents or guardians. She makes a good guide or mediator.

-10 Opposition between the Sun and Neptune

You have a desire to be something special or to experience something more than the ordinary. You are a daydreamer and idealist.

It is easy for you to trust others, even (and perhaps especially) people who might seem, from the outside looking in, unsavory types. You seek to identify with something beyond what is normally expected of people.

You may have had a childhood that didn't help you direct or define your life. Perhaps the early family life lacked supervision or clearly-defined rules. A father figure may have been absent or distant and ineffective. You may have a glorified image of your father. Whether the

image is very positive or very negative (or if it swings between these extremes), the image is not very clear or objective. Whatever the case may be, you struggle with defining who you are. You might gravitate towards the "wrong people" or get in with the "wrong crowd" in an attempt to define who you are. You might be susceptible to being taken advantage of by others, especially men or authority figures.

You may be easily led astray by peculiar desires or self-destructive habits. To add a greater-than-ordinary dimension of experience to your life that helps you to feel special and important, you might be attracted to Neptune-ruled behaviors, such as secret affairs, drugs, or other escapist behaviors. In some way, you may feel a strong urge to glamorize your role in the world. There can be some confusion about the past (such as remembering childhood experiences in ways that are far removed from reality) and a tendency to daydream about being someone more "important" than you feel you are.

You may struggle with early conditioning that made you feel tossed aside or neglected in some way and certainly not directed or supported. You are very sensitive, especially concerning any real or imagined blows to your ego.

If the natal chart shows a strong sense of reality and a robust mind (Mercury and Saturn are well-placed, for example), the negative interpretations of this aspect are less extreme. Still, you will come to recognize at some point in your life that you tend to engage in escapist and self-destructive fantasies and/or habits. It is useful to be able to connect these behaviors with their probable source, which could be a weakly-defined ego and identity in early life so that you can work on these issues in meaningful ways. You might also work on fears of being inadequate, which can unnecessarily sabotage you.

Key traits: She is creative, daydreamy, and compassionate. Her observations and insights are unique and fascinating, making her an original and helpful guide. She benefits from more routine or discipline (or a very different approach to these things) than was acquired from early life. She should aim to overcome the tendency to idealize people or situations or gloss over problem areas.

12 Trine between the Sun and Pluto

You have much sexual vitality and passion. It's easy and natural for you to find a passion, pursue it, and focus on a goal.

Not much scares you! You enjoy and embrace growth, especially of the psychological kind. You love a good mystery, and you are adept at solving it.

You readily assign meaning to what others might consider "ordinary" events. You look for symbols and read between the lines in almost any situation.

Your physical vitality is generally strong, and your body is usually able to heal quickly. You are not afraid to get your hands dirty, and you are usually quick to help others--not only with mundane tasks but also on a spiritual or psychological level.

Your insight is sharp and sometimes awe-inspiring. You are perceptive and not easily rattled or surprised in life. You are not a do-gooder, nor are you a law-breaker. However, you are not afraid of the "dark side" of human nature, and you will bend the rules from time to time if you feel the need to do so.

You take particular pleasure in growth and life's lessons. You are not fond of superficiality and are generally the first to spot pretense of any kind. You are passionate and can be intense. You have a hunger to experience more than just an "ordinary" life, and you can be quite ambitious. Some people with this aspect are perfectionists, demanding much from themselves and reasonable effort and honesty from others.

Key traits: She is creative, ambitious, and ready to transform or improve matters. She benefits from her willingness to improve, reform, and change. She has determination and willpower and can readily turn around a situation.

-184 Opposition between the Sun and Midheaven

She struggles with finding a career that suits the personality. She may not face up to problems, and her plans are often difficult or even impossible for her to realize.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Taurus

Familiarity is important to Lunar Taureans. These people are earthy and strong-willed. They feel with their senses, and they are pretty much rooted in their ways. They revel in material comforts--in fact, building a solid and comfortable home and foundation helps to keep them feeling safe and content.

It isn't wise to try to push Lunar Taureans into doing anything, but once they have committed, they're persevering. There's a steadiness to this position of the Moon that is comforting to those close to them. But the conservative streak in these natives can be maddening to more progressive personalities. They tend to go out of their way to avoid "messy" or unpredictable situations, crises, and emotional displays. Instead, they focus on creating a reliable and secure life around them.

In relationships, Lunar Taureans may not easily recognize their partner's need for change, growth, or emotional stimulation. However, Moon in Taurus natives are generally very romantic. Their affections are strong, deep, and unwavering. They are sentimental and warm.

Since Taurus is a practical earth sign, the placement of the Moon in this sign suggests an ability to protect themselves and their own interests. They rarely make a move without first determining that it is safe and that there's something in it for them. Generally, Taurus Moon people have reliable instincts. They are very much tied to the physical world, and they often have a particularly well-developed sense of smell.

Relationships with people born with this position of the Moon are often quite enduring. Many Moon in Taurus people hang onto their mates, even in the face of serious conflict. Taurus is a fixed sign, so break-ups don't happen easily.

There is a calming serenity to them. In fact, it takes a lot to really get to them. However, they do get off-center every once in a while. They are not the most adaptable people when their own routine is interrupted, for example. Though some Lunar Taureans might be considered inflexible, most simply have a stubborn streak that keeps them rather resistant to change. Rarely are they spontaneous sorts.

Uncomfortable with surprises, these natives value stability. Their needs are strong but quite simple at the same time--they love the "good things" in life. The world of the five senses is all-important to these natives. Their love of stability and steadiness can make them slaves to routine. However, they are loyal and capable people.

Short description:

Sweetness itself. Convinced of her ideas and strong-willed. She is foresighted and willful. She knows how to trust. She appreciates all the good things in life. She appreciates and protects nature.

Possible issues: excesses in pleasure, laziness, sensuality, thoughtlessness.

Moon in I: The Moon is in the first house

Very sensitive. Fantasizes. She has an expressive face or often thinks out loud. She is easily touched, moved, and affected; she is sometimes shy, prudent, and emotional.

Your feelings are right out there for everyone to see, and you can come across as emotional and impatient, or nurturing and caring (or both). Your first reaction is emotional, especially if the Moon is in close proximity (within ten degrees) of the Ascendant degree. Because you are reactive, you could appear more inconsistent than you actually are!

You need emotional stimulation, movement, and freedom to express yourself in order to feel happy and fulfilled. Your moods are very changeable, and this can be quite obvious to others. Because of your emotional sensitivity, you might often take things too personally and react too quickly. Developing an awareness that others' emotions are just as important, even if they are not as overt and immediate as yours, will be important. While you are intuitive and intelligent, you learn, with time, to avoid impulsive decisions.

299 Conjunction between the Moon and Jupiter

She is generally pleasantly composed, due to an inner sense of harmony and emotional balance. She is optimistic--and realistically so, most of the time--which contributes to her overall "luck." She is able to get a real perspective on emotional matters that not only benefits her outlook, she is able to offer support to others when needed. Broad-mindedness is a wonderful characteristic. Quick to find humor in situations, she is generally warm and fun to be around. Deep down, she believes in the basic goodness of people and of life in general, and this basic and natural attitude helps her to attract positive circumstances and to make good connections. One of her best qualities is tolerance. Usually, she doesn't take life too seriously in the sense that she believes in having a bit of fun, enjoying life. Her hunches are more often than not bang-on.

She is frank, honest, optimistic and generous. She likes good cooking, creature comforts. Her friendships are sincere. She is smart and knows how to surround herself with the right people: She is appreciated at work, usually well-liked and comfortable.

40 Trine between the Moon and Midheaven

She has a strong sense of family, profound feelings, and may especially like children and animals. If there are changes in her professional life, they are most often for the better. There is a sense of forward movement, popularity with those in authority or in the professional life.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Gemini

Mercury in Gemini people are generally quick-witted. They can come across as somewhat scattered, and this is mainly due to their eclectic interests. They seem to know a little about everything.

Turn to Mercury in Gemini for lots of facts and figures as well as broad knowledge. Their learning is a little superficial--they generally have too many interests to delve too deeply into any one. These people learn best in a stimulating environment. They get bored easily, but they are fast learners. Impressionable to a fault, Mercury in Gemini people pick up more from

their environment than most, and they can process information at lightning speed! The restlessness of Gemini is especially obvious when Mercury is placed in the sign. There is a nervous energy here that is unmistakable.

Mercury in III: Mercury is in the third house

Deep studies. Adaptable. She is attracted to the Arts/letters. She knows how to share ideas. May move around a lot professionally. Can easily keep many irons in the fire at the same time. A true multi-tasker.

This is an especially curious and inquisitive position for Mercury. You are generally very interested in reading, teaching, speaking, exchanging ideas, keeping current with the daily news, and perhaps gossiping. Your interests are many and varied, sometimes to the point that you barely skim the surface of any one topic. You are also very easily distracted and your attention span can be quite short. Quick to learn, you are also swift to share what you know with others. You can be very talkative when you have the chance. You can be a list maker, and often are quite involved in your community. Some of you can be quite nervous or fidgety.

-155 Square between Mercury - Mars

While her spirit is lively, it is also cunning. She often acts without thinking, she often throws herself into things and can often exaggerate or can have a strong sense of drama - and this can bring certain problems. She is nervous and sometimes irascible. She can develop others' ideas -- while others hesitate, she is quicker to jump in, pressing on. Quick to debate, challenge. Quick-minded.

-294 Opposition between Mercury - Saturn

She is reserved, conservative, ambitious, and stubborn. She might have problems expressing herself, particularly verbally, due to shyness or fear of criticism. Social success may be slow and laborious, but she does not give up easily and is patient. Can spend a lot of time on communications and getting them just right.

Whatever you say and write is self-censored to some degree. It's hard for you to pour out your emotions, no matter how emotional or needy you feel on the inside. This is because you are always aware of what others might think of you with what you say. You are careful with what you reveal to others. You make plenty of disclaimers, and often come across as negative or sarcastic without intending to. You often review conversations you have had with others, and you often kick yourself for saying something you didn't intend to, or for not saying something witty. There can be some feelings of insecurity about how you speak and communicate in general. Self-consciousness and hypersensitivity is experienced with

regards to your intelligence and/or ability to get ideas across to others, especially in youth. You need plenty of positive feedback from others in order to feel more confident and less "blocked".

Recognize that you are most likely harder on yourself about how you communicate than others are. Ask people close to you for an objective point of view. Chances are, they find you to be astute, intelligent, and an effective speaker or writer. We often tell our kids "don't worry about what others think", but telling this to a person with a hard Saturn aspects is not enough, nor is it realistic. They will worry. You rarely accept compliments whole-heartedly, yet you crave them and need them. Others around you tend to stop complimenting you, feeling that you either don't need compliments or don't want to hear them. Nothing can be further than the truth!

-255 Opposition between Mercury - Uranus

She likes debate and controversy, and, above all, to contradict. She may lack diplomacy and tends to dissipate her energy. She cannot stay in the same place for too long, especially mentally, preferring change even if it means a backward step in her career.

64 Sextile between Mercury - Ascendant

She is intelligent, with quick and lively reflexes. She is preoccupied with her circle, likes to exchange ideas with her friends, but also with strangers. Of an open nature, often reaching out to others.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Gemini

Venus in Gemini people will try to win over the object of their affection with witty conversation, displaying just how much they "know," and demonstrating their diverse interests. These lovers are playful -- some might even call them a tease. They are hard to pin down, and they resist relationships that promise to become too "comfortable." Even those with their Sun in Taurus or Cancer, whose outward demeanor may suggest some reserve and caution, will want their relationships to be stimulating and full of conversation with Venus in Gemini. Venus in Gemini people don't want to be tied or bogged down in their relationships. They appreciate lightheartedness in love. Although they are willing to talk (perhaps endlessly) about the relationship, you may get the feeling that they gloss over some of the deeper issues. In love, their tastes change often, and it can be hard to know what to expect from one day to the next (or, sometimes, from one hour to the next!).

Pleasing Venus in Gemini involves supporting their need for fun and variety, showing interest in their brainpower and knowledge, and giving them space for friends and activities outside of the relationship. Let them know just how much fun you have with them. Try not to get overly miffed by Venus in Gemini's changeable, fickle ways. Remember that time spent with your lover will be exciting and invigorating.

Venus in II: Venus is in the second house

There is a link between her emotional life and money. She is helped by friends or by a person to whom she is emotionally linked. May take advantage of friendships for professional success. Activities connected with beauty, aesthetics, finery. Danger of big spending.

Tangible expressions of love and affection are important to you. Your tastes are usually "simply extravagant", well-defined, strong, and something you are proud of. Some might feel you have a talent for finding items of value and good taste. You are attracted to items of quality. You may use generosity for your own benefit--in other words, you might give gifts with expectation of reward. Some of you might be hedonistic and overly attached to winning admiration from a partner, at the expense of discovering true love. Your neck and upper chest are erogenous zones, and your voice is unusually attractive. You generally don't jump into a new relationship. If you do, your feelings grow gradually. A partner who makes you feel safe and secure is ideal for you. Once committed, your love is long lasting and sincere. You have strong values and others will find it hard to sway you in this area. Sensual, the world of touch and smell is most appealing to you. Complex or mysterious partners are not as intriguing to you as simple and genuine ones.

Mars

Mars represents the desire for action and physical energy.

Mars is in Pisces

Mild-tempered and gentle, people with Mars in Pisces are appealing, attractive, and somewhat indirect. Mars is the planet of action and assertion, and Pisces is a passive sign that rarely asserts itself directly. Sometimes prone to guilt about their anger or difficulties asking for what they want, Mars in Pisces individuals often go with the flow. They may often let life "happen" instead of trying to control their life direction.

This is a charming position, as individuals with Mars in Pisces seem incapable of harming a fly. However, those who don't find creative expression for this energy can stir up a storm through indirect aggression. They're not averse to playing games to get what they want, although even they don't always know precisely what they do want! Their desires are changeable and moody. When Mars in Pisces people take a stand on issues, often those causes that are Piscean in nature, they make compassion and love their mission.

Energy levels fluctuate greatly, coming in bursts of activity followed by inertia. Because it can be difficult to align this ebbing and flowing of energy in the day-to-day world as it is, finding a job that supports this may be tough but far from impossible. The happiest Mars in Pisces individuals have a creative outlet that allows them to express their desires of the moment, their compassion--and even their anger--freely and imaginatively. Water sports, dance, music, and skating appeal.

Key traits: Able to build energy from deep emotion. Will not step over others to succeed. Requiring more than usual sleep or downtime/escape from everyday pressures.

Possible issues: ambivalence, indecision, and procrastination.

Strengths: A compassion warrior, charitable, ability to downplay the ego for the greater good, great empathy.

Mars in XII: Mars is in the twelfth house

So much of her energy goes into working life. She loves research. She could be a lab worker, doctor, police officer, teacher specializing in hospital, prison or hospice work. She can be indirect and very private. Rich dreams and fantasies.

With Mars in the twelfth house of the natal chart, you can struggle with asserting yourself in direct, natural ways in your youth, but with time and experience (and perhaps some hard work), you're likely to learn to work with this energy rather than allow it to work against you. Watch for a tendency to feel defeated before you've given something a real shot. You are extraordinarily resourceful, and you can handle many things on your own or in uniquely creative ways.

Though you may have a great deal of energy and drive, you lack confidence or the desire to put yourself and your interests first. Positively you can be very unselfish, working more on behalf of others than for yourself. You deny your own desires and needs too much, however, and you are likely to secretly become very angry, which can sabotage your finest efforts. There is a touch of the incurable romantic in your nature. Your daydreaming and fantasizing world is rich and precious to you. You also bring imagination into your sexual relationships, although you can take a bit of time to feel comfortable and to warm up to a new person in your life. Overcoming a vague and persistent feeling of guilt or doom can go a long way towards a healthier, happier approach to the pursuit of your desires.

213 Sextile between Mars - Jupiter

She has a good sense of organization, she is jovial, frank, and sincere. She is full of dynamism and abundant energy. She loves life, taking all it has to offer. She likes sports and the outdoor life. She is successful professionally and emotionally. She may have many children or projects and ventures.

She is honest and forthright in her dealings with others, and She tends to trust others readily. She can be a bit careless about spending money, however, and this is probably because she is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter her mind, although success itself is not as important to her as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

-99 Square between Mars - Saturn

She is often attracted to doing something if there are problems attached. Once these are solved, she will go on to something else that has complications. She likes to overcome obstacles, can be tough, and is business-minded. She can be very stubborn and sometimes cold and calculating.

-83 Square between Mars - Uranus

She is full of contradictions. She is original, tending to the eccentric, headstrong, impatient, and sometimes irascible. Erratic energy levels, needing to be fully inspired to apply energy to a matter. She will fight to the bitter end to overcome hurdles, and has the strength to overcome them.

Jupiter

Jupiter represents expansion and grace.

Jupiter is in Taurus

She attracts the most good fortune when she is charitable, generous but discriminating, and patient. Should watch for over-indulgence. She delights in sensual pleasures and wants the good life.

Jupiter in I: Jupiter is in the first house

Possible issues: hard, unforgiving, rigorous, and insensitive at times. A limited and narrow mind in rare cases.

She is studious, patient, rigorous, austere. She likes reflection, meditation. She carries out all the plans she makes. She can be a stay-at-home.

269 Conjunction between Saturn - Uranus

Uranus in Sagittarius

She is shy, delicate but proud, bold and lively.

Cancer with ascendant Aries

Ascendant is in Aries

People with Aries Ascendants are direct and quick. Their first instinct is to do, rather than think. Planning ahead? Forget it. Aries rising simply charges forward without much ado. This position does not make a person aggressive. Forthright, yes, but aggression is too strong a word for these natives. They have a youthful, direct manner that sees what it wants and generally goes for it. At the same time, there isn't any malice in their intent. Some Aries rising people are competitive, but they generally put most of the pressure on themselves. These

people love to come out ahead in all that they do. They get ready quickly, walk quickly, and have little patience for dilly-dallying. Their temper is quick, too. It's also quick to disappear. Rarely do you find Aries rising people holding grudges. Their mannerisms are rather simple and straightforward.

Aries rising loves action, and is often trying to stir up some activity. Their strengths lie in their enterprising ways. Finishing things they start does not always come as easily, unless the ruler, Mars, is placed in a more tenacious sign, such as Taurus or Scorpio. Aries Ascendant often gives a rather swift walk, with the head leaning forward slightly. This walk is surprisingly distinctive. Headaches, and sinus and eye problems are the usual physical complaints of this position. Rashes and acne on the face and shoulders sometimes occur. Broad shoulders and slim hips are common. Often, Aries rising people are quick to smile, and they possess a youthful charm throughout life. Probably early on in life, Aries rising people got typecast as the "independent" child. As adults, people with Aries Ascendants often stick to that role in life. People don't run to help them out -- they appear quite fine doing things on their own. These people have learned to be self-reliant, and this generally stems from their early experiences. Despite a rather brusque and independent manner, these natives are usually very willing to compromise in their relationships, and are very attached to the people they hold dear.
