## Introduction to Your Birth Chart Report

---

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case. Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days.

Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

### Planet Positions, Ascendant, & Houses

---

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

## Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

### Birth Chart

---

This birth chart report shows the positions of the planets for Chart 3.

### The Sun

---

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Gemini

With the Sun in Gemini, the urge for self-expression is strong. These natives are often just as interested in collecting information as they are in sharing it. Curious to a fault, Geminis have a finger in every pie.

Solar Geminis are flexible and changeable people. Their ability to adapt quickly to new situations generally gains them plenty of friends and social contacts. Usually quite clever and witty, Geminis enjoy intellectual conversations, and they are easily bored if not sufficiently mentally stimulated!

Often quite adept at fitting in with others, Geminis easily adopt the moods of those around them. They are friends with people from all walks of life, and they are not easily intimidated. Their ability to detach themselves can make Geminis very objective and observant but a little difficult to get close to. Although they often have many friends, intimacy doesn't come as easily to Solar Geminis.

It's not always easy to know what Gemini truly feels at any given moment. They are often very impressionable and scattered. There is usually a nervous air to Geminis that can make more personal characters a little uneasy. It is not always intuitive to trust Geminis to be loyal or to keep secrets. Geminis often flit about, moving quickly and keeping busy every step of the way. Many people with this position of the Sun have gained quite a bit of knowledge in their lifetimes, but they don't always seek specialized or in-depth knowledge. This is because Geminis have relatively short attention spans and are happy to know a little about everything. Restlessness is especially common with this position of the Sun.

Usually quite affable, Geminis enjoy the "light" side of life. This tendency to take things lightly makes them quite pleasing to be around. It's true that it can be maddening to people seeking support on the deeper issues in life. However, Geminis are both interesting and interested.

They're always ready to help. Their wit can be dazzling and their changeability sometimes dizzying--Geminis will seldom bore you.

Short description:

He is an opportunist. He can express himself easily and tends to learn quickly. He is welcoming and gentle. He likes travel and intellectual work.

Weaknesses: a changeable and diffuse nature. They may waste energy by taking on too many things. He lacks persistence in achieving set goals.

Gemini with ascendant Libra

Sun in IX: The Sun is in the ninth house

You have a deep need to understand the world around you. You have high ideals and your eye on what's on the horizon. As you so frequently look ahead, you can seem quite restless. You're proud of your knowledge, mind, and morals. Advice: Avoid self-righteousness in your enthusiasm to share your knowledge. At your best, you are a tolerant, adventurous, and curious person, and you want to see the best in people--and in life itself.

Key points:

He takes an interest in different cultures or has a spiritual side. He is enthusiastic and excellent at promotion or marketing. He believes that things will work out and in spiritual protection.

916 Conjunction between the Sun and Mercury

Because your ego and mind are usually on the same page, you possess abundant mental energy. You are always in a position to think about what you want, and in many ways, this is an interruption of the will. You are highly intelligent with a great drive to communicate with others. You invest a lot of pride in your intellectual capacities. You may not always listen as well as you speak, however, because you're too busy thinking about what to say next! But you are very curious, and although you enjoy expressing yourself, you usually don't dominate conversations completely.

Regarding studying or learning, you are better off reading the material than listening to a teacher. These traits come from a strong need to actively participate in communications. It is tough for you to listen passively and absorb information.

Your opinions are usually strong, and you are an independent thinker. You tend to be proud of your ideas and thoughts and might easily get a bruised ego if you are not "heard" or if your opinions are pushed aside, ignored, or criticized. You are expressive and possibly a very

animated speaker. You are also very witty; others enjoy your playful and sometimes mischievous sense of humor.

Key traits: He is verbal, intelligent, observant, and sometimes nervous or wired.

### 132 Trine between the Sun and Jupiter

Endowed with generosity and friendliness, in some ways, you appear to be lucky in life. You attract good things with a positive frame of mind and a charitable disposition. Rarely entirely "down and out," you are usually well-received, helpful, and well-informed. You may enjoy travel or adventure and have a special affection for foreign places and people. You're generally not very competitive and, for the most part, not combative, either. As a result, you are often well-liked.

You are usually good-hearted, possessing strong morals and much faith in life and people. You prefer to find the good in situations. Looking on the bright side is your forte--people can turn to you for a generous dose of faith and optimism.

You don't have a lot of patience with those who break the rules, however, as you generally believe in order, equality, and the law. You exude sincerity and are usually trusted--you do your best to make good on your promises,

You are quick to chuckle and can't resist any appeal to your sense of humor. Some people with this aspect are downright jolly. Others are less conspicuous, but their faith and willingness to find humor in life's circumstances are unmistakable.

Key traits: He is fundamentally optimistic and wanting to do good things (or the right thing).

### -202 Opposition between the Sun and Uranus

Your identity rides on your sense of personal freedom. It can be quite a challenge to get you to do what you don't want to do, simply because you see any attempts by others to push you in a certain direction as threatening to your sense of freedom. You are a very dynamic person who questions tradition and authority, yet, paradoxically, you can be quite set in your ways! Although a humanitarian in many ways, you can be a little brusque when it comes to sentimentality or what you perceive to be excessive attachment to the past or to tradition. You can have a lot of nervous energy and defensiveness. It can be difficult to hold a 9 to 5 job or to develop steady routines. You work best when you can manage your own schedule, and you work in spurts. When you are hit with creative inspiration, you are capable of tremendous effort. However, you can be quite temperamental, and it is very hard for you to pour your hearts and souls into something that you don't "feel" for at the moment. You don't like superficiality or pretense, which is an admirable trait. However, your disdain for pretense can be problematic in a world where people are expected to perform whether they are

inspired or not! You should try your best to channel your high levels of intuition, inventiveness, and spiritedness into creative endeavors or important causes. You might find that you encounter much less resistance in day-to-day life this way.

## 21 Trine between the Sun and Ascendant

It comes easily and naturally for others to receive you well. There is a distinct air of authority and benevolence surrounding you. The authority you project typically doesn't offend others, primarily because people sense your sincerity simultaneously.

Most people would describe you as natural, easy to like, and friendly. You have a marked interest in the performing arts and/or sports and games, either as a spectator or participant. This is an especially favorable aspect to have for those who are in the public eye.

## The Moon

---

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Pisces

Lunar Pisceans are known to be dreamy and not always in touch with reality. However, though these people may not always show real-world savvy in day-to-day, practical affairs, they make up for this with remarkable intuition. They can put themselves into anybody's shoes with extreme ease. On the plus side, this endows them with remarkable compassion and love. The downside of this apparent ability to break down boundaries is that they can easily lose themselves in the suffering of others.

Their sense of humor is delightfully silly and a bit odd. These are perceptive souls who seem to be in touch with all the nuances and subtleties of human nature. Often this comes through in a strong sense of humor that is more of the receptive kind than the type of sense of humor that would make people the "life of the party." It's generally pretty easy to get them giggling.

Moon in Pisces people may get tagged as spaced out, but there's much more to them than meets the eye. They feel things out and rely on their intuition--it just doesn't feel right for them to do otherwise. Their dreaminess can mean plenty of moments of absent-mindedness. These times of oblivion can land them in all sorts of predicaments with others who can too easily misunderstand these complex souls.

Without plenty of space and time to daydream, Pisces Moons easily get overloaded with life. Give them room to be alone with themselves, and they're generally able to take on the world--even if their style is not always conventional or understandable when they do so.

Generally considered soft-hearted and sweet, Lunar Pisceans care about others and are easily touched by human suffering. This tendency gains them the reputation as suckers for sob stories. Although this may sometimes be true, many Lunar Pisceans learn, in their lifetimes, how to discern between sincerity and manipulation. Still, they definitely do have plenty of soft corners.

In personal relationships, Lunar Pisceans are giving and yielding. They are generally open on a sexual level, quietly. Their fantasies can be far-reaching, intricate, and rich with emotion. Love is closely tied in with their sexuality. Most Lunar Pisceans are shy; they need a trustworthy lover to bring them out.

There's a delightful accepting side to Moon in Pisces that is sometimes mistaken for weakness. Pisces is the twelfth and last sign of the zodiac and thus carries with it a little of each sign of the zodiac. As a result, they see themselves reflected in the behavior of others, giving them seemingly boundless compassion. Since the Moon represents our instinctive nature, Moon in Pisces seems to know how things feel without actual experience. The ones that aren't too shy make awesome actors and actresses. This ability to empathize even in the absence of experience gives them an open mind and heart. Most long to express this through writing, music (both listening and making), poetry, and art -- in fact, the happiest people with this position do just that.

Most Pisces Moon people instinctively know when they're due for a much-needed recharge. It's at these times that they retreat from the world (and its harsh realities) only to gather the strength to face everything and everyone again. Solitude is important to them, but they also need people, so their retreats will usually be short-lived. Pisces Moon individuals believe, and, let's face it, the world needs Piscean leaps of faith.

Short description:

Imaginative, sharp insights. He is impressionable, with abundant imagination. Gentle, warm, humorous, artistic.

Potential issues: troubles caused by too much sentimentality, worries, problems, unhealthy imagination, escapism, and nervousness.

Moon in V: The Moon is in the fifth house

He likes pleasures, distractions of all sorts. The emotional life is rich. He loves children and may have a lot. He will be self-taught. Likable, dramatic, humorous, and amorous. Could be self-indulgent, irresponsible, or non-committal in youth.

You love to share emotional experiences with loved ones and have a flair for the dramatic. Love affairs are magnetic and intense, and you don't take them lightly by any means, although you may go through much change concerning your romances. Your creative

hobbies are subject to relatively frequent changes, and you have innate artistic talent.

A child at heart, you have a vivid imagination and are given to frequent daydreaming. There is a sense that you are always in touch, or trying to get in touch, with your inner child. If the Moon is challenged in your chart, you may have problems with impulsive shopping or gambling or with frequent love affairs that never fully satisfy you. In any of these cases, you are more attached to the game than the player, which is something to work on if you want to find true fulfillment. You might take risks just for fun, but in the process, you are being irresponsible to others and yourself. However, with age, maturity, or a well-supported Moon, you are entertaining, love friendly competition, musical, spirited, creative, and personable.

### 282 Sextile between the Moon and Venus

You are generally amiable and project a soft and yielding manner. You possess natural charm and you are highly imaginative and sympathetic. You can make an excellent mediator and go-between. You are keenly aware of your need for relationships and for intimacy. You have a well-developed respect for qualities typically associated with the feminine. People appreciate you for your tender heart and friendly, diplomatic disposition. You should enjoy a good measure of personal popularity and success in your life. Although generally considered "lucky" with relationships and with money, this is less about luck than it is about a certain level of inner peace and positive energy that attracts pleasant situations. At times you can be complacent, downright lazy, and over-indulgent in the "pleasures" of life. However, you are a peace-maker at heart and have an unusual ability to help and heal others. You are gracious and warm.

He is gracious, sweet, happy. He especially enjoys pleasure and entertainment, the Arts. He needs tenderness. He appreciates home life in a comfortable, safe atmosphere more than most.

### 139 Trine between the Moon and Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You are a sexual person who nevertheless doesn't get too carried away or controlled by your passions. Because your emotions are strong and you know how to channel them into constructive channels, you don't easily understand such things as "crimes of passion", impulsive behaviors, or emotional excitability in others. You're generally open, accepting, and natural in your sexual expression. You need an emotional connection in order to feel complete on a physical level. You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: He is frank, honest, full of vigor and ambition. He is strong-willed and powerful at work. He is a little hard on himself but perhaps more on others whose capacity for action is not as great or inherent.

### 111 Sextile between the Moon and Neptune

Positive aspect: He is kind and sympathetic, with a strongly compassionate nature. When in love, he is usually very devoted. In fact, he is devoted by nature, not only in matters of the heart.

There is an unmistakably compassionate and understanding side to his nature. He has a natural affinity to music. While everyone enjoys music, people with Moon in harmonious aspect to Neptune respond to music as a vehicle to heal, relax, and to uplift the soul.

Naturally perceptive, without even trying he tunes into the feelings of others, and the mood of his surroundings. There is a distinct emotional need to escape into the world of imagination, and to withdraw from others at times when he needs to re-center himself, largely because he tends to "take in" a lot of mixed energies from his surroundings. Strong and sudden "feelings" and hunches can overcome him. More often than not, his intuition is correct, although his imagination is also powerful and he can read too much into a situation as a result.

Some laziness is associated with this position. This stems from a natural timidity and sensitivity that is apparent from youth. He may have been labeled "shy" in youth, and family members or friends may have jumped in to "save" him from situations that required boldness or aggressiveness. Thus, passivity was accepted and, as adults, he may be less experienced than most when it comes to reaching out or going after what he wants.

### 112 Trine between the Moon and Pluto

He can waver between a rich and successful domestic life and social success, perhaps having difficulty succeeding at both. Very perceptive and given to psychoanalyzing people. A strategist. Powerful emotions and intense feelings.

### 160 Sextile between the Moon and Lilith

This aspect favors romantic and sexual relationships, giving charm, intrigue, and intelligence. Emotions are big, dark, and mysterious, but he embraces these things, instinctively understanding and accepting the many sides and complications of his feelings.

## **Mercury**

---

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Gemini

Mercury in Gemini people are generally quick-witted. They can come across as somewhat scattered, and this is mainly due to their eclectic interests. They seem to know a little about everything.

Turn to Mercury in Gemini for lots of facts and figures as well as broad knowledge. Their learning is a little superficial--they generally have too many interests to delve too deeply into any one. These people learn best in a stimulating environment. They get bored easily, but they are fast learners. Impressionable to a fault, Mercury in Gemini people pick up more from their environment than most, and they can process information at lightning speed! The restlessness of Gemini is especially obvious when Mercury is placed in the sign. There is a nervous energy here that is unmistakable.

Mercury in IX: Mercury is in the ninth house

His thirst for knowledge is never satisfied. He is mentally active. He may undertake exhaustive studies, always studying for pleasure. Can very much enjoy journeys to faraway places, and may go to live abroad.

You are eternally curious and hunger for knowledge. You enjoy studying and learning, and do it not because you have to, but because you want to. You enjoy exchanging ideas and personal philosophies with others. You can be especially buoyant, enthusiastic, and even inspiring in your communications. While you may not pay enough attention to details, you are skilled at finding a quick solution to problems. You readily see the bigger picture and enjoy sharing your opinions and ideas. You get off on how information affects people's lives, and you take great pleasure in learning that something you have shared or taught has inspired others to take action, experience something new, or make changes in their lives. Some of you might be too quick to offer advice, however, that might be lacking in thoroughness and practicality, or that you yourself don't follow.

134 Trine between Mercury - Jupiter

He is intelligent with big ideas: He is tolerant and has a strong sense of justice. He has good judgement, good sense and has his feet on the ground. He has the "gift of gab," fully enjoys literature and learning. He is erudite and will usually be successful socially.

-200 Opposition between Mercury - Uranus

He likes debate and controversy, and, above all, to contradict. He may lack diplomacy and tends to dissipate his energy. He cannot stay in the same place for too long, especially mentally, preferring change even if it means a backward step in his career.

3 Trine between Mercury - Ascendant

He is intelligent, with quick and lively reflexes. He is preoccupied with his circle, likes to exchange ideas with his friends, but also with strangers. Of an open nature, often reaching out to others.

## **Venus**

---

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Taurus

Love for Venus in Taurus centers on the physical world and creature comforts -- they revel in sensual surroundings. These people project themselves as solid and comfortable. In fact, something about their manner promises they will be satisfying lovers and partners. They need a certain measure of predictability and dependability in their relationships, even if their Sun is in the more spontaneous signs of Aries or Gemini.

Venus in Taurus people can be possessive in love, and they are threatened by fast-paced, high-energy situations in the context of relationships and love. These are sensual partners who require lots of "hands-on" expressions of love. Their lovers may complain that Venus in Taurus can get a little too comfortable and settled. It's true that they resist change in their relationships, but even when they seem stuck in a groove, you can always reassure yourself by remembering that they are constant partners. Pleasing Venus in Taurus involves emphasizing your loyalty, and their worth to you. You may need to give in to them in love matters, because they won't readily give in to you! Get physical with them; do comfortable things. Avoid pushing them in love -- give them plenty of time. You will probably need to cultivate patience if you are in a relationship with Venus in Taurus. Remember to be simple and natural -- Taurus will appreciate it. Promise them a comfortable, cozy time. Love arrives slowly, without passion but with force.

Venus in VII: Venus is in the seventh house

His fate can depend a lot on partnership. May connect for love, children, happy emotional life.

Harmony is most important to you, so it is unlikely you will attempt to dominate a lover. You are a peacemaker, sometimes going to great lengths to achieve a balanced, harmonious relationship. Be careful not to bend over backwards just to keep the peace--you may be taken advantage of. Your marriage partner may be especially attractive, charming, or well off. You are extremely attractive, agreeable, and charming, drawing others to you magnetically. You need an unusual amount of contact and exchange with a partner, and might find that you feel completely lost without one. Some of you might quickly enter into partnerships, perhaps too quickly and neither equipped nor prepared for the responsibilities that a long-term relationship demands. In some cases, there can be a shallow or materialistic interest in partners. Your hips and lower back may be special erogenous zones for you, or they may be especially attractive body parts.

183 Sextile between Venus - Mars

He is amorous, not a peaceful and calm lover but a passionate one with a strong temperament. He is demonstrative in love, and usually fully enjoys healthy pleasures and life to the full.

#### 128 Trine between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

#### -360 Opposition between Venus - Pluto

In an attempt to control the outcome of a love relationship, or the loved one's feelings, he can turn to manipulative games. Even if he does "succeed" at it, there is never a feeling that he has won someone over for who he is, and this feeds a vicious cycle that should be avoided if possible.

His feelings are intense, and even extreme, when it comes to love. He might attract intense relationships that have love-hate themes as a result. He can be very passionate when in love, definitely, but also passionate when in hate! He easily put pressure on a partner, expecting much loyalty and honesty in intimate relationships. Should avoid allowing relationships get to a point where the partner is superfluous and he is working through his own inner demons through that person. Certainly, he will learn much about himself through his relationships, and he may not always like what he sees. He meets himself (the "darker" side or inner demons) through his relationships, and it will be critical that he can recognize it as his own "material" and not project it onto the partner. Letting go of a relationship can be hard for him to do, especially if Venus is in a fixed sign (Taurus, Leo, Scorpio, or Aquarius).

#### 356 Conjunction between Venus - Lilith

This aspect suggests charm, beauty, attracting others by his magnetism. He is intense in love. Feelings are complicated. There can be brooding. However, he is inclined to embrace, accept, and understand the darker side of his nature.

## **Mars**

---

Mars represents the desire for action and physical energy.

Mars is in Gemini

Mars is the planet that rules our drive and passions. In the mutable air sign of Gemini, Mars is a little scattered and unfocused. Easily bored, Mars in Gemini natives need a fresh change of pace frequently just to keep energy levels up. It's a somewhat odd thing, really. When there's nothing much to do, these natives are exhausted. But if there's plenty of interesting things on their agenda, Mars in Gemini natives can be powerhouses! More than most people, these individuals have a physical reaction to boredom. Besides possessing a passion for words, when Mars in Gemini natives get angry or fired up, they use words as their "weapon". Angry words--some of the most incisive and sarcastic ones--can fly around with the more energetic natives. Others simply talk things through--energetically! Whatever the case may be, Mars in Gemini natives need to get everything off their chests when they're fired up.

In fact, debates are a Mars in Gemini specialty. These natives draw on their sharp wit to win arguments. In general, they can be talkative sorts, sometimes bordering on verbal diarrhea. Those whose charts show more reserve only become chatty when they're worked up about something or the other. Some people with this position of Mars are quite fidgety. They have much nervous energy. In general, their nervousness and restlessness are at the root of plenty of physical ups and downs. When they're on edge, they can be nitpicky. Many Mars in Gemini natives channel their energy through their hands. Gemini, after all, rules the hands; and these people often express energy through musical instruments and the like--even video games. Many are attracted to puzzles and games as diversions. These natives are very adaptable, often thriving on change. They often take up many projects at once, spreading themselves thin at times. Sustained interest is not especially common with this position of Mars. Most will benefit from attempting to focus their energies rather than scattering them. However, their versatility and disdain for routine generally means Mars in Gemini natives are busy people.

Mars in IX: Mars is in the ninth house

Deeply rooted opinions that he knows how to defend energetically. At times, he can fight for a particular ideal but might abandon it along the way, being less convinced than at the beginning of its virtue or because he realizes that it is a losing battle. Conflict abroad or with foreigners. Very adventurous, brave, and magnetic.

-105 Opposition between Mars - Neptune

This is a challenging position, as you have difficulty trusting in your ability to go after things that you want in a direct manner. It may also be that you have difficulty pinpointing what it is that you want, or that part of you doesn't feel you deserve it due to a basic lack of self-confidence. You fear rejection as well as criticism, and often use roundabout means to go after what you want.

Your imagination is so powerful that it can be hard to trust your instincts. You easily imagine things going wrong, just as you easily fantasize about good things! Your desire nature is strong yet also very suggestible. You're attracted to mysteries and intrigue. Sexual experimentation is likely, as you are forever addicted to sensuality and unusual or perhaps even what many would consider perverted sexual scenarios. However, your sensual appetite might be much like a bottomless pit, and you could find yourself forever in a state of wanting more, tiring of regular sexual scenarios quickly, and endlessly searching for the next sensation. If an addiction to fantasy is present, you can find yourself constantly chasing a new and more complicated fantasy. It is only when you get into touch with your heart and discover your true desires that you realize that sensations are merely sensations--not deeply satisfying or fulfilling.

Fears of inadequacy can be great with this position, and you may either deny yourself as a result, or overcompensate, seeking out experiences in which you are pretty much assured positive feedback. Some of you will experience both of these extremes in your lifetime.

Although you can be very creative at keeping your motives and personal agenda hidden--in fact, many of you seem on the surface of things to be quite gentle and yielding--you might eventually become resentful if you feel the need to resort to sneakiness in order to get what you want out of life. If you do feel resentment for giving up your power to someone else, learn to avoid giving it up unless you truly understand that you are doing it for yourself, and not for someone else. Resentments have a way of building and distorting themselves into ugly matter if you don't deal with them properly and directly. You are often passive-aggressive in your approach to others, and this can cause a lot of problems in your life. You are usually found chasing a dream... or a fantasy. The former is probably the better path.

Adopting a more direct and assertive approach to life is something that you should be working towards. You will need to get over your feelings of guilt when you do adopt this approach. Learning to take responsibility for your actions, and to avoid blaming others for failures, is important. At your worst, you can be disorganized in your approach to life, easily procrastinating and lacking follow-through when you do begin a task. Some of the most important lessons you need to learn in life are self-control, self-assertion, and trust in yourself. At your best, you are a creative person with a powerful imagination and great stores of compassion.

Look a little closer at their lives, and these nice people may have had quite a few problems in their relationships. Some of them have had a string of relationships, and it can be hard to imagine why! These natives attract others to them effortlessly. Besides, they simply don't know what to do with themselves without a significant other. Libra rising generally appear to be smoothing everything over.
